ORCID

ROSÁRIO OLIVEIRA <http://orcid.org/0000-0002-0923-8141>

My research is focused on the relationship between Territory and Landscape, considering that concepts, approaches and methods on Landscape Character Assessment may be and should be integrated on spatial planning and landscape management towards a more efficient qualification and valorization of its resources and dynamics, promoting better life standards.

Note – This document has 17 pages

2. Academic background

Year	Academic degree	Organization	Grade
2008	European PhD in Arts and Techniques of Landscape	University of Évora	Approved with honors and distinction
2001	Master degree (Academic component) in Tourism, Environment and Local Identity	ISCTE-IUL - University Institute of Lisbon	16
1994	Post-graduation in Spatial Planning and Regional Development	University of Évora	16
1994	Graduation in Landscape Architecture	University of Évora	14

3. Current situation and previous scientific and/or professional activities

Date	Job or position	Organization
2011-2014	Full member of e-GEO Research Center in Geography and Regional Planning	FCSH – Univ. NOVA de Lisboa
2011-2014	Full time Guest Lecturer	FCSH/DGPR – Univ. NOVA de Lisboa
2010-2011	Part time Guest Lecturer	FCSH/DGPR – Univ. NOVA de Lisboa
2008-2010	Research member of TERCUD – Research Center in Territory, Culture and Development	University Lusófona, Lisbon
2007-2009	Guest Lecturer; Scientific Coordinator for the area of Spatial Planning	University School Vasco da Gama, Coimbra
2000-2007	Researcher	University of Évora
1990-2002	Technical /NGO Leader/Consultant	Association for the Protection of Mertola's Heritage/ World Wide Fund for Nature (WWF)

4. Scientific areas of activity

Spatial Planning:

Urban – rural dynamics; Territorial Cohesion; Urban Food System Planning; Territorial management evaluation.

Landscape management:

Landscape Character Assessment; Landscape multifunctionality evaluation; Public perception of the landscape and of its dynamics; Landscape cultural identity, Governance in the implementation of Environmental, Agricultural and Landscape policies.

5. Specialization Domain

Spatial planning and Landscape management

5.1 Current research focus

Territorial Cohesion
Urban Food System Planning
Landscape policy/ European Landscape Convention
Landscape perception and evaluation
Cultural landscape management
Governance in spatial planning

6. Theses and Dissertations

2007, Integrative Management of the Landscape. New Parameters for the Implementation of Common Agriculture Policy. A case study in Southern Portugal (European PhD Thesis, University of Évora; Defense in January 2008).

2007, Participative management of rural landscapes. A Case Study in the Municipality of Odemira. (PhD Complementary Examination; University of Évora, Defense in July 2007).

1994, Ecomuseum of the Guadiana River in Mértola. The implementation in an Integrated Development approach. (Graduation paper in Landscape Architecture, University of Évora).

7. Teaching/ Orientation/Examination

7.1 Teaching

2013, Lecturer in the course “Regional and Urban Spatial Planning (applied). Undergraduate programme in Geography and Regional Planning, FCSH - Universidade NOVA de Lisboa

2013/2014, Lecturer in the course “Landscape and Cultural Identity”, Undergraduate programme in Geography and Regional Planning, FCSH - Universidade NOVA de Lisboa.

2012/2014, Lecturer in the course “Landscape Perception and Evaluation”, Master programme in Territorial Management – Specialization field – Environment and Natural Resources, Universidade NOVA de Lisboa.

2011/2013, Lecturer in the Research Seminar “Territorial dynamics and management: Between the Urban and the Rural” of the PhD programme in Geography and Territorial Planning, Universidade NOVA de Lisboa.

2012/2014, Lecturer in the course “Spatial Planning Methodologies” (applied), Undergraduate programme in Geography and Regional Planning, Universidade NOVA de Lisboa.

2011, Lecturer in the course “Territorial Governance and Institutions”, Master programme in Geography and Development, University Lusófona.

2010-2014, Lecturer in the course “Territorial Management and Evaluation”, Undergraduate

programme in Geography and Regional Planning, Universidade NOVA de Lisboa.

2010 -2014, Lecturer in the Seminar “Spatial Planning and Territorial Management”, Undergraduate programme in Geography, Universidade NOVA de Lisboa.

2007-2009, Lecturer and Coordinator of the Scientific Area of Spatial Planning in the Integrated Masters Program in Architecture. School Vasco da Gama, Coimbra. Lecturer in the Courses of OT IV, OTV, OTVII e OTVIII.

2008-2010, Lecturer in the course “Tourism and Environment”, Undergraduate programme in Tourism, ISLA, Lisbon.

2006, Lecturer in the course “History, Patrimony and Cultural Landscape”, Masters Programme in Regional Economics and Local Development, University of Algarve (Course under the Responsibility of Professor Cláudio Torres).

2006, Lecturer in the course “Touristic Resources Planning” University of Évora Undergraduate Program in Tourism and Development, University of Évora, (Course under the responsibility of Professor Teresa Pinto Correia).

2005, Lecturer in the course “Landscape Identification and Characterization” Masters Programs in “Biology of Conservation” and in “Conservation and Rehabilitation of Inner Waters”, University of Évora (Course under the responsibility of Professor Teresa Pinto Correia).

7.2 Orientation

Doctorate:

Freitas, M.J., 2013. Eco-tourism, landscape and health. A Case Study on Pedestrian Paths in the island of Madeira. PhD programme in Geography and Territorial Planning, FCSH/UNL (Tutor).

Laghai, S., 2013. The relevance of socio-cultural dimension of Historic Urban Landscapes. Evaluation and Challenges. PhD programme in Urban Studies, FCSH/UNL. (Tutor).

Morgado, M.J., 2013. Urban Food Systems – The Municipal Marketplaces in the Metropolitan Area of Lisbon (MAL) as an Urban Network of food supply. PhD programme in Urban Studies, FCSH/UNL. (Director, ongoing)

Martinho, R., 2013. “Valuation of the Regional Ecological Networks Landscape. The Case Study of Alentejo”. PhD programme in Geography and Territorial Planning, FCSH/UNL (Director, ongoing).

Câmara, A.C, 2012. “(Re)Signifying the Landscape. A contribution of Geography teaching for the definition of a geographic profile and local identity”. PhD programme in Geography and Territorial Planning, FCSH / UNL. (Co-Director, ongoing)

Masters:

Maurício, I., 2012. “Methodological contribution for the definition of a green infrastructure in Portugal”. Master programme in Territorial Management. FCSH/UNL (Director, ongoing)

Possolo, E., 2012. Urban landscape evaluation in a cultural and historical identity perspective. The Case Study of Bairro da Mouraria in Lisbon". Master programme in Territorial Management FCSH/UNL. (Director, ongoing)

Santos, E., 2012. The Dams in Cabo Verde, its' environmental and socioeconomic impacts. The Case Study of the Poilão Dam. Master programme in Territorial Management. FCSH/UNL. (Co-Director, defended)

Raimundo, A.F, 2011. "Landscape study and management in the municipality of Mafra. Contribution for the Municipal Ecologic Structure within the European Landscape Convention framework". Master programme in Territorial Management, specialization in Spatial Planning and Territorial Management. FCSH/UNL. (Director, defended)

Freitas, M.J, 2011. "Characterization and evaluation of the Ecotourism in the island of Madeira on a sustainable development approach". Master programme in Territorial Management, specialization in Territory and Development. FCSH/UNL. (Director, defended)

Borges, M., 2011. "The urbanization process in the city of Tarragal. (Achada Tomás I e II). Contributions for its' evaluation on a Sustainable Cities' approach". Master programme in Geography and Development, University Lusófona. (Director, defended)

Gomes, E., 2010. "Equilibrium. An integrative vision among architecture and territory." Dissertation for the integrated Master degree on Architecture, Architecture Department of the University School Vasco da Gama, Coimbra. (Director, defended)

Lucas, C., 2009. "The becoming of architecture and sustainability: Considerations about sustainability in spatial planning in Portugal". Dissertation for the integrated Master degree on Architecture, Architecture Department of the University School Vasco da Gama, Coimbra. (Director, defended)

Cascalheira, S. 2008. New Governance models in local development. Analysis and reflection on public policies in the inner municipalities of Alentejo". Thesis for the Master degree in Planning and Local development processes evaluation. ISCTE - University Institute of Lisbon, Department of Sociology. (Director, defended)

Monteiro, A. 2008. "The virus (The Mermaid's cry). Proposition of a green infrastructure for the city of Coimbra". Dissertation for the integrated Master degree on Architecture, Architecture Department of the University School Vasco da Gama, Coimbra. (Director, defended)

Horst, ter Elles, 2004. "Amendoeira da Serra, a village threatened by abandonment. How bright is the future?" Master's Thesis, University of Wageningen (Holland) /University of Évora. (Director, defended)

Undergraduate:

Santos, H., 2001. "Identification and Characterization of Landscape Units on the basis Cluster Analysis" Graduation paper for the Undergraduate programme in Landscape Architecture, University of Évora. (Director, defended)

7.3 Examination committees

PhD and masters degrees, as examiner:

Gonçalves, C, 2013. The European Landscape Convention and the revision of the Municipal Plan". Oral defense of the dissertation for the Masters degree in Urban and Regional Planning, Social, Political and Territory Sciences Department, University of Aveiro.

Ávila Gomes, C., 2012. "The concept of landscape character and its' application in the management of protected areas: Case Study of Azores". Oral defense of the thesis for PhD degree in Landscape Architecture in the Agronomy Superior Institute – University of Lisbon.

Mota Pinto, M., 2011. "Poverty and environment: A slum in Cova da Moura". Oral defense of the dissertation for the Masters degree in Territorial Management, specialization in Environment and natural Resources. Universidade NOVA de Lisboa.

PhD and masters degrees, as a member of the committee:

Rodrigues, S. 2012. Articulation among levels of spatial planning: The PROT guidelines at the municipal scale". Oral defense of the dissertation for the Masters degree in Territorial Management, specialization in Territorial and Spatial Planning, Universidade NOVA de Lisboa.

Duarte, A., 2011. Urban Occupation in "Costeira de Loures. A territory to reconvert". Oral defense of the dissertation for the Masters degree in Territorial Management, specialization in Territorial and Spatial Planning, Universidade NOVA de Lisboa.

Próspero, R. 2012. Agricultural spaces in peri-urban areas – Typology and planning in the Metropolitan Area of Lisbon". Oral defense of the dissertation for the Masters degree in Territorial Management, specialization in Territorial and Spatial Planning, Universidade NOVA de Lisboa.

8. Project participation

2013-2015, Coordination of the European project ECSLAND (European Culture Expressed in Sacred Landscapes), in Portugal, WP 2 - European Sacred Landscape Character Assessment. EC Culture Programme.

2013, Coordination of the European project ANATOLE (Atlantic Network Abilities for Towns to Organize Local Economy) in Portugal. Programme Espace Atlantique – FEDER.

2013, Coordination of the project application "Towards Resilient Urban Food Systems: The case of LMA" to the FCT (Not funded).

2012, Coordination of the study "Landscape multifunctionality in Baixo Vouga Lagunar: a contribution for climate change adaptation – Framework for the implementation of a Territorial Action Plan". European programme F:ACTS! - Forms for: Adapting to Climate Change through Territorial Strategies. General Directorate of Territory.

2011, Participation in the study “Functional Regions. Urban-rural relations Cohesion policies after 2013. Coordinated by Prof. João Ferrão, Social Sciences Institute.

2011, Coordination of the study for the Information System for the Azores Landscape Management”. Azores Regional Department of Environment and Sea.

2010, Coordination and elaboration of the proposal for the European Landscape Convention implementation. Framework for Municipal Plans”. General Directorate of Territory in collaboration with the University of Évora.

2009, Coordination of the Study regarding the creation of the Protected Area of Serras do Socorro e da Archeira (APSSA)”. Municipality of Torres Vedras in collaboration with the University of Évora.

2009, Coordination of project PAISAGEST – Collaborative landscape management. Essays for the implementation of the European Landscape Convention in Portugal. University Lusófona.

2008, Coordination and elaboration of the proposal for the European Landscape Convention implementation in Portugal. Principles and Strategy. General Directorate of Territory in collaboration with the University of Évora.

2008, Metodological definition for the Biophysical Study of Environmental Impact Study of Tourism Development Falesia D'El Rey, Óbidos. Bodesign.

2008, Post-doc on the subject “RE-ATTACHING PEOPLE TO LANDSCAPE THROUGH COLLABORATIVE DECISION MAKING: A MUST FOR SUSTAINABLE MANAGEMENT”, In collaboration with the Faculty of Sciences and technology of the Universidade NOVA de Lisboa and the Department of Environmental, Social and Spatial Change of the University of Roskilde, Denmark (suspended in 2009)

2008, Project “Governance and Participation in Spatial Planning”, requested by the General Directorate of Territory in the scope of the policy instrument “Innovative solutions for Urban Development” of the urban Policy “POLIS XXI” coordinated by Professor Lia Vasconcelos, Universidade NOVA de Lisboa.

2006-2007, Co-coordination of the project “Study of the Landscape in Óbidos”, requested by the Municipality of Óbidos to the University of Évora in collaboration with Professor Alexandre Cancela d'Abreu.

2005-2006, Member of the research team in the European project “SEAMLESS – System for Environmental and Agricultural Modeling; Linking European Science and Society” (Integrated project EU FP6), Coordinated by Professor Teresa Pinto Correia.

2005-2006, Coordination and elaboration of the “Study of the Landscape in two Case Studies in Odemira Municipality”, Project Pertencer, Association Taipa/ university of Évora.

2004-2005, Member of the research team in Project “Rural and agriculture abandonment, in rural spaces”. Ministry of Agriculture, Food and Fisheries”.

2002-2005, Member of the research team in Project “Integrated Landscape Management in Mértola Municipality: New standards for the implementation of the Common Agricultural

Policy.” (FCT 2002-2005).

2004, Member of the research team for the definition of the methodology to be used in Rural Space Studies, requested to the University of Évora by the General Directorate of Territory.

2002-2003, Coordination of the establishing process of the Landscape interpretation Centre of Amendoeira da Serra, Mértola, owned by the Municipality of Mértola, including the definition of contents and action plans, design, assembling, promotional materials, landart workshops organization and artistic landscape interventions.

2002-2003, Coordination of project “Rede-Gest, Territorial management laboratories network of the south of Portugal” involving 9 organizations owning and managing interesting areas regarding biodiversity preservation and rational management of natural resources. Project funded by the AVINA Foundation.

2000–2002, Co-coordination of Project “Landscape identification and characterization in the Portuguese mainland” University of Évora.

2000-2003, Coordination of project "Greenbelt in the south of Portugal", funded by the “World Wide Fund For Nature” (WWF), aiming to establish ecological corridors that allow biodiversity conservation and the development of the area comprised between the Alentejo coast and the Guadiana valley.

2001-2002, Coordination of project "SURibéria – Environmental impacts of European policies in the south of the Iberian Peninsula” funded by the “World Wide Fund For Nature” (WWF).

2001, Participation in project “Revaluation of Herdade de Vale Formoso – Revalform”, under responsibility of University Nova of Lisbon and the Alentejo Regional direction of agriculture.

2000, Preparation of the signaling plan of the thematic trails in Mértola municipality and edition of tourism promotion materials for the municipality of Mértola.

2000, Coordination of the construction of a Reception Center in Amendoeira da Serra, Mértola, within the National Programme of Nature Tourism.

1997-1999 – Coordination of project “Guadiana vivo” with the objective of promoting public participation in the management of the Natural Park of the Guadiana Valley, funded by the “World Wide Fund For Nature” (WWF).

1993-2002, Coordination of a Centre for Studies and Environmental Awareness (Monte do Vento) for the experimental and demonstrative management oriented for nature conservation, bio agriculture, forest landscape recovery, and environmental education in Mértola.

1997, Consultancy to the Nature Conservation Institute / Natural Park of the Guadiana Valley.

1992-1997, Coordination of project CADISPA (Conservation and Development in Sparsely Populated Areas) International project funded by the “World Wide Fund For Nature” (WWF) and developed in 5 European countries.

1992-1995, Coordination of the elaboration of a proposal for the classification of a protected area for the Guadiana Valley, classified as a Natural Park, in 1995.

1992-1994, Coordination of project “Ecomuseum of the Guadiana” which includes the definition of a network of thematic trails in the municipality of Mértola and the recovery of built heritage with value, such as the windmills, as well of rural museum centers.

1992, Research of the interdisciplinary team member for the “Study of the Touristic potential of the Mid-lower section of the Guadiana hydrographic basin” (Baixo-Alentejo/Andaluzia) within INTERreg programme

1991-1993, Coordination of “Biophysical characterization of the Mid-lower section of the Guadiana Valley” In collaboration with the company “Biodesign” and Science Faculty of the University of Lisbon. This study consisted on the inventory and systematization of the assets justifying a proposal for the classification of the Natural Park of the Guadiana Valley.
